This is a Copy and Paste solution for listeners who cannot seem to open the default Listen links using iTunes.

- COPY the URL (web address) of the stream you wish to open -

HI-FI:

<http://208.85.242.184/tunein.php/pagan96/playlist.pls>

LO-FI:

<http://208.85.242.184/tunein.php/pagan24/playlist.pls>

- In iTunes (full view mode), click on **ADVANCED / OPEN STREAM** (see image below)

- PASTE the URL in the text field, then click on OK.
